Subject: fyi at high school

Doug,

When I was at the high school today to pick up Hannah from softball, I was parked by the gym doors and out of the car and helping Hannah get her bags in and handing her the banner. [REDACTED] pulled up and parked right behind us (very close). I got back in the car without saying or doing anything and waited for Hannah to give the banner to the coach. [REDACTED] stayed parked behind us the entire time.

You know as well as I do there are a lot of other options at the school for waiting for a child finishing practice. It's a big parking lot. Hannah noticed it and said the same thing.

I don't think that there is anything we should do at this time, but I do want to document this.
